

K-Love serves as the only Christian radio station that I can receive in my area. I see K-Love bumper stickers all over my town which tells me that this radio station is uplifting to many members of my town. If the LPFM station is given to another format provider, I will have virtually no contact with a program which I financially support every month. I am a school teacher and I often hear the students, independently hearing stories from each other how they found K-Love on their radio and how it just made them feel better to listen to it. IF this station did not exist, these students would be listening to other formats that do not lead to positive character development. Please keep K-Love on the 96.9 LPFM frequency in the Dayton, Ohio Market.
